

Shaik Sameer Basha

Frontend Developer with **2.9+** years of experience creating scalable, responsive web applications. Proficient in ReactJS, JavaScript ES6, TypeScript, HTML, and CSS, with skills in state management, debugging, and performance optimization. Adept at translating complex requirements into intuitive user interfaces and delivering seamless user experiences.

Work Experience

Software Engineer, MetricStream

Sept 2022 - Aug 2024

- Utilized React JS, Next JS, Redux and React Hook Forms to implement features in GRC products.
- Collaborated with UI development team to translate Figma designs into functional web pages.
- Ensured optimal performance by integrating new features and maintaining existing functionalities.
- Developed and optimized web applications with IndexedDB for offline storage and performance.
- Implemented Web Vitals monitoring (LCP, INP, CLS) to enhance user experience.
- Integrated Content Security Policy (CSP) to enhance application security.

Intern, Nxtwave

Nov 2021 - Aug 2022

- Gained foundational web development skills using HTML, CSS, and Bootstrap.
- Progressed to advanced dynamic web design with JavaScript, React JS, and Hooks.
- Built diverse applications including authentication and local storage functionalities.
- Explored Material-UI and other essential libraries for comprehensive React applications.
- Introduced Jenkins for continuous integration and deployment.

Technical Projects

GRC Product, MetricStream | Sep 2022 – Aug 2024

- Developed form templates and reports using React JS.
- Managed forms with React Hook Form and ensured data consistency using Redux.
- Added multiple unit test cases with Jest, validating code reliability and stability.
- Implemented and monitored Web Vitals (LCP, INP, CLS). Enhanced security through Content Security Policy (CSP).

Education

Rayalaseema University, Kurnool (2020)

Bachelor of Science in Computer Science

[linkedin.com/in/shaiksameerbasha/](https://www.linkedin.com/in/shaiksameerbasha/)

Technical Skills

Front-end

- HTML
- CSS
- Javascript
- Typescript
- React JS
- Next JS
- Redux Toolkit
- React Hook Form

Back-end

- Node JS
- Express JS
- MongoDB
- SQL
- JWT Authentication

Libraries & Tools

- Material UI
- Tailwind CSS
- Git
- Jest/RTL
- Webpack

Development Practices

- Responsive Design
- Dynamic UI
- Performance Optimization
- Agile Methodologies
- Content Security Policy (CSP)
- Lazy Loading
- Web Vitals (LCP, INP, CLS)

Key Contributions

- Resolved 400+ issues and developed 30+ new features within a 2-year timeframe.
- Played a pivotal role in optimizing code and ensuring adherence to coding standards.
- Utilised Jira for efficient workflow management and issue resolution.
